

Requested Amendment

Kindly amend Claim 1 as follows:

- (1) (Amended) A detachable trolley and mop bucket combination comprising a mop bucket having front and rear sets of wheels thereon and movable over a floor surface and a trolley having a frame adapted for carrying cleaning supplies, the trolley supported by the wheels thereon for moving over a floor surface, the trolley and the bucket separately and independently movable and having a connection between them for selective attachment to securely connect the mop bucket to the trolley so that the combined bucket and trolley can be easily maneuvered by one person.
